

Genesis I. and Modern Science

By Charles Bartlett Warring

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.From the PREFATORY. With most scientists it is no longer good form to regard the first chapter of Genesis as any thing more than a poem, the work of a wise but uninspired man. High authority advises the students of science no longer to trouble themselves with these theologies, for their statements are false and their order is wrong. On this I join issue, and propose, as Professor Huxley says, to test this view in the light of facts. As the questions which arise are questions in astronomy, geology, and other departments of natural science, nothing better can be desired than that they should be decided by a jury of experts in these studies. In trials involving commercial law it is desirable to get a jury familiar with its principles. In questions of maritime law experts in that department are sought. In questions of mechanics or engineering men who are to decide them ought to have a knowledge of their principles. With equal justice it is claimed that men acquainted with science are best qualified-I should say ought...
