Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Public Health, Chemistry and Bacteriology: A Handbook for D. P. H. Students The present work is based on the notes prepared by the writer for his class while teaching Public Health Chemistry and Bacteriology. These were compiled from various standard works, and from articles appearing in the medical journals from time to time. No originality is therefore claimed for them, and grateful acknowledgment is made to the sources indicated. The book is intended to assist in, and supplement, actual laboratory teaching, and not in any way to supersede it. It has been the writer's endeavour therefore to make it as complete as possible, while leaving out matters which can be more satisfactorily taught and demonstrated than written about. No illustrations have been introduced, as the various instruments and apparatus are seen and used in the actual work.
