

Social Problems: Constructionist Readings

By -

Transaction Publishers. Paperback. Book Condition: New. Paperback. 287 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. This collection of focused essays is directed at several levels of students of social problems. It is accessible to the uninitiated, who are not familiar with the constructionist literature, and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives. Some readings focus on the construction of problems by scientists and other professionals; others examine the work of social activists, mass media, and social service personnel. Among the topics included are studies of social inequalities and individual deviance; a comparison of the images of social problems in the United States with those in other countries; and an examination of the importance of politics and power in constructing public images of social problems. Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems. Yet constructionists impact on the teaching of social problems has been far less dramatic. Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives. Just as the first social problems textbooks did almost a century ago, textbooks continue...
